## Policy Statement

We aim to accommodate the sleep and rest needs of the children who attend THE KIDS CASTLE OSHC. As the children are in school age care many do not need formal sleep during the sessions they attend, however do need the opportunity for rest and relaxation. We will take all reasonable steps to provide opportunities to meet each child's individual need for sleep, rest and relaxation. Their needs may vary because of illness, physical exertion, or lack of sleep.

## **Procedure**

We will provide a safe sleeping/rest area for children to use when they show signs of tiredness or request a rest. This will be an area away from the main group of children, or in a quiet space, where possible. The area will be smoke free, along with the Centre environment.

Where children utilize blankets or pillows, they will be monitored to ensure their face is not covered during rest or sleep.

Programming will be organized to ensure there are opportunities for rest and relaxation, especially during vacation care.

THE KIDS CASTLE OSHC will ensure hygiene standards are maintained. For example, regular washing of cushion covers and bedding, especially if a child has been unwell.
